SheStyles – Smart Outfit Planner

- Built a recommendation system using **NLP embeddings and SVM classification**.
- Implemented a natural language interface for generating personalized outfit matches.
- Stack: Python, Flask, SQLite.

github.com/Gayatrisabat/safar

Safar – Smart Travel Packing Assistant

- Developed a rule-based assistant generating personalized packing lists.
- Implemented checklist optimization, item suggestions, and e-commerce redirection.
- Stack: HTML, CSS, JavaScript, Firebase.

github.com/Gayatrisabat/studybuddy-student-productivity-app

StudyBuddy – Student Productivity Tracker

- Built a productivity dashboard for student task management.
- Added features for task add/delete/search with real-time task count updates.
- Stack: HTML, CSS, JavaScript.

Certifications

- Programming with Python – Internshala (Top Performer, 95%)
- Google Cloud Skills Boost – Prompt Design in Vertex AI
- Microsoft AI Skills Challenge – Cybersecurity with AI

- Deloitte Cyber Job Simulation – Forage (June 2025)

Leadership & Activities

- Corporate Coordinator, Microsoft Learn Student Council – Led outreach, collaborated with mentors, and organized AI/ML learning initiatives.
- Attendee, Google Cloud Community Days (Mumbai) – Participated in expert-led sessions on AI/ML and cloud-native development.
